UNION CITY
RECYCLES
says together we can...

Keep It Clean!

Recycling is at a crossroads. Extra attention is needed by residents and businesses to reduce waste overall and make sure that we're putting the correct materials in the recycling and green bins.

Recycling works best when materials in the recycling and green bins are clean and free of contamination. Your continued help with proper sorting can make a difference!

Reduce and reuse come before recycling. The less waste we generate, the less of it we need to manage.

Visit **www.StopWaste.org/recycle** for tips on using less.

Can Do!

Recycling works best when items are clean, empty and dry.

Use Less Paper.

Think before you print and help us stop waste.

Skip the Junk.

Opt-out of junk mail online and help yourself and the planet.

Skip the Plastic

Use your own bottle, cup and straw to minimize plastic waste in the ocean.
