**EFFECTIVE JULY 1, 2016**

Recycling has been required since July 1, 2012 for businesses and institutions with 4 or more cubic yards of weekly garbage service and multi-family properties with 5 or more units. As of July 1, 2015, Hayward multi-family properties and businesses and institutions that generate significant quantities of food waste (e.g., restaurants, food processors and grocery stores) are required to arrange for separate organics collection.

Effective July 1, 2016, all Hayward businesses will be required to arrange for recycling services.

Learn the rules at [RecyclingRulesAC.org](http://RecyclingRulesAC.org) or call: 510-891-6575

To order recycling or organics collection service, call Waste Management at (510) 537-5500
